Access and Eligibility for Services

County funded Behavioral health services are intended for children and adolescents who are either experiencing a behavioral health crisis (such as depression, suicidal thoughts, extreme anxiety, substance abuse/dependence) or who require behavioral health services in order to function in school, at home or in the community. Generally services are targeted for the Medi-Cal beneficiaries and low income up to age 21. All services are rendered without regard to race, color, creed, or disability. Individuals and professionals may make direct contact with any of the resources listed in this manual. ***However, it should be noted that, in some cases, access to services is managed through specific procedures and may be limited to certain special populations.*** Where possible, this information has been included in this manual. If in doubt about eligibility or how to access services, please contact the Access and Crisis Line at **(888) 724-7240**.

Access to Language Services

Clients have a right to free language assistance in a language they understand. Clients shall be provided interpreter services as a part of their therapeutic services. However clients have the option to choose or use a family member or a friend as an interpreter. The client/family are not expected to provide their own translator. All Behavioral Health programs have access to translators.

Fees and Funding

Behavioral health services provided through the County of San Diego are financed through Medi-Cal, the Mental Health Services Act (MHSA), patient fees, private insurers, County general funds, State funds, and specialized grants. Fees for services are based on income and the number of family members in the home. This Uniform Method for Determining Ability to Pay (UMDAP) is mandated by the State. Medi-Cal, Medicare, and other insurance coverage will be taken into account in determining the individual's monthly payment. *No person who otherwise qualifies for services will be turned away due to lack of funds.*

Organizational Providers

Serve children/youth with complex needs through a multidisciplinary team.

Health Plans

Serve children/youth with mild to moderate needs. CYFBHS has integrated Mental Health Services (MHS) and Alcohol and Drug Services (ADS) for children, youth and families and gender specific Alcohol and Drug Services through the perinatal ADS Women's programs. CYFBHS embraces the principles of a Comprehensive Continuous Integrated System of Care (CCISC) for co-occurring disorders.

Fee For Service (FFS) Providers

Service children/youth with complex needs through individual providers.

Care 1 st Health Plan	(855) 321-2111
Community Health Group	(800) 404-3332
Health Net	(888) 426-0030
Kaiser Permanente	(877) 496-0450
Molina Healthcare	(888) 665-4621

Live Well San Diego

CYFBHS supports the *Live Well San Diego* vision of Building Better Health, Living Safely, and Thriving. *Live Well San Diego*, developed by the County of San Diego, is a comprehensive, innovative regional vision that combines the efforts of partners inside and outside County government to help all residents be healthy, safe, and thriving. Building Better Health focuses on improving the health of residents and supporting healthy choices. Living Safely seeks to ensure residents are protected from crime and abuse, neighborhoods are safe, and communities are resilient to disasters and emergencies. Thriving focuses on promoting a region in which residents can enjoy the highest quality of life.

San Diego Network of Care

The Network of Care website is a resource for individuals, families and agencies concerned with behavioral health. It provides information about behavioral health services, laws, and related news, as well as communication tools and other features. Regardless of where you begin your search for assistance with behavioral health issues, the Network of Care helps you find what you need - it helps ensure that there is "No Wrong Door" for those who need services. This website can greatly assist in our efforts to protect our greatest human asset - our beautiful minds. Information is available in Spanish, Cantonese, Russian, Tagalog, Vietnamese, Cambodian, Korean, Arabic, Somali, American Sign Language, French, Italian, and, Portuguese.

<http://sandiego.networkofcare.org>

2-1-1 San Diego

2-1-1 San Diego is a free, 24 hour, confidential phone service available in 200+ languages and searchable online database. 2-1-1 is a trusted, local, nonprofit organization with connection to more than 6,000 community, health, disaster services, and much more. The Enrollment Services team helps identify, screen, and help people apply over the phone for benefit programs including CalFresh, Medi-Cal, and Covered California. 2-1-1 is partnered with the First 5 Commission of San Diego to support an information and referral system that serves the needs of families with children under 6 years of age as well as pregnant women. 2-1-1 can link families eligible for pregnancy-related Medi-Cal to care and work to assure pregnant women obtain early and continuous prenatal care and other services they need. The goals for this program include: healthy mothers have healthy babies, linking pregnant women to available health care services and assuring pregnant women receive early and continuous prenatal care.

Children, Youth and Families Behavioral Health Services Mission and Vision Statement

Mission

The purpose of the System of Care Council is to ensure that all agencies serving San Diego county youth from age 0 through age 21 have coordinated services resulting in improved youth and family, and system outcomes consistent with System of Care Values and Principles.

Vision

San Diego youth are healthy, safe, successful in school, and in their transition to adulthood, while being law abiding, while living in a home and community that supports strong family connections.

Definitions

Advocacy and Support Services

Advocacy services are crucial to ensuring that the mandated rights of children, youth, and their families are protected and that complaints and grievances are satisfactorily resolved. Support services offer families and their children the opportunities to share their concerns with other families and behavioral health professionals.

Child Welfare Service (CWS)

Child Welfare Services (CWS) and Behavioral Health Services (BHS) jointly administer the Pathways to Well Being program along with many other shared planning efforts. Behavioral Health Services and CWS coordinate services to ensure that dependent youth who have behavioral health needs receive services from a wide range of services and support within the Children's System of Care.

Continuum of Care Reform (CCR) AB 403

The Continuum of Care Reform is a series of existing and new reforms to Child Welfare Services (CWS) and Probation. The principles of CCR are built around the right of all children to permanency in a family environment, access to a Child and Family Team that includes all collaborative service providers and natural supports, availability to appropriate mental health services regardless of placement, and the transition of residential group home placements to Short-Term Residential Therapeutic Programs (STRTP), which will provide short-term, intensive treatment interventions and are designed to quickly transition children back to a permanent family. Implementation efforts for CCR will occur in stages between now and 2021.

Crisis Services

24 hour crisis response. Crisis services include emergency psychiatric care and crisis intervention counseling. Programs that serve children, youth and their families in crisis are able to respond quickly to urgent needs such as support, information, counseling, medication, and referral to other resources.

Day Treatment Programs

Day Treatment Programs provide an intensive treatment program that offers individual, family and group services in a therapeutic milieu. Services include medication management and monitoring, crisis intervention, case management and rehabilitation services. Some Day programs are co-located in a residential treatment program while some are community based. Access to residential day programs is through the Probation, Child Welfare Services or school district.

Family and Youth Partners

Family and Youth Partners is an overarching term for an individual with experience as a child or youth or parent/caregiver of a child/youth who is or has received services from a public agency serving children and families. Youth & Family Partner roles may include, but are not limited to Administration, Advocacy/Community Engagement, Training and Supervision, Support Partners (direct service), Peer to Peer, and Outcomes and Evaluation activities.

Fee for Service (FFS) Network

Services for Medi-Cal beneficiaries access through Optum Health/Access and Crisis Line.

Full Service Partnership (FSP)

Full Service Partnership (FSP) provides an array of services to children and youth and their families beyond the scope of traditional clinic-based outpatient mental health services. FSP services provide additional supports to promote stability and successful functioning within the community. Services and linkages are provided in the home or community, guided by a commitment to do "whatever it takes," to help children, youth and their families achieve self-defined goals toward resilience and wellness.

Inpatient Psychiatric Hospitals

Hospitalization or inpatient psychiatric care is for mental health emergencies and situations that require intensive supervision for individuals who are a danger to self, dangers to others or gravely disabled.

Intensive Case Management

Intensive Case Management are community-based services that emphasize the strengths of the children, youth and family and includes the delivery of coordinated, individualized services to address needs and achieve positive outcomes. Providers engage in a unique assessment and treatment planning process that is characterized by the formation of a child, family and multi-agency team which includes community and natural supports.

Juvenile, Forensic Assistance for Stabilization and Treatment (JFAST)

JFAST of Juvenile Offenders is a Mental Health Court Calendar, comprised of partners from the Juvenile Forensics STAT Team, Probation, the Juvenile Court, Primary Public Defender, District Attorney, Vista Hill Juvenile Court Clinic, Wraparound providers and other mental health professionals and community representatives. Youth referred to the program are screened by Probation and a behavioral health assessment is completed by the BHS STAT Team. When youth is accepted into the JFAST Program a case plan is developed that is formalized at a hearing that identifies the conditions and terms of probation. Clients receive individualized treatment services which can include individual and family therapy, wraparound services, substance abuse counseling and case management services.

Juvenile Forensic Services

Juvenile Forensic Services provides mental health services to youth in the San Diego County Probation institutions and youth transitioning from detention back into the community. Referrals for services are made by the Juvenile Court, the Probation Department, other juvenile justice system providers, and community providers.

Outpatient Services

Outpatient programs offer psychiatric evaluation, medication management, individual, group, and family therapy, rehabilitative services and case management to children /youth with a high level of need. Outpatient clinics offer limited crisis intervention services during business hours. While it is possible to walk in to some programs and receive timely service most programs schedule an assessment appointment to see a clinician as needed. Outpatient services provide services for Medi-Cal children/youth and indigent youth who meet criteria for specialty mental health services. The Medical Health Plans serve children/youth with mild to moderate level of need.

Prevention and Early Intervention (PEI)

Prevention programs bring mental health awareness into the lives of all members of the community through public education initiatives and dialogue. To facilitate accessing supports at the earliest possible signs of mental health problems and concerns, PEI builds capacity for providing mental health early intervention services at sites where people go for other routine activities (e.g., health provider, education facilities, and community organizations). Mental health becomes part of wellness for individuals and the community, reducing the potential for stigma and discrimination against individuals with mental illness.

Probation

The Probation Department and Behavioral Health Services coordinate services to ensure that youth who have behavioral health needs receive services from a wide range of services and support within the Children's System of Care. These services range from behavioral health services at Juvenile Hall, and the Camps to community based treatment such as Breaking Cycles, Juvenile Court Clinic and Juvenile Drug Court Services.

Residential Day/Outpatient Programs

Residential Level 12 and 14 programs offer day treatment and outpatient services for children and youth who are placed in a residential treatment facility. Access to these programs is through Child Welfare Services or through Probation and the Juvenile Court involvement.

School Based Services

Outpatient and day services provided at over 400 school sites throughout the County.

Teen Recovery Centers (TRC) Day Treatment/Outpatient Program

Adolescent Teen Recovery Center programs provide developmentally appropriate substance abuse treatment for adolescents and their families including those with co-occurring disorders. Regional programs provide outpatient services, day treatment services and crisis intervention. TRC's have school satellites at selected school grounds to facilitate access to resources.

Therapeutic Behavioral Services (TBS)

Therapeutic Behavioral Services offer specialized short-term one to one behavioral services designed to prevent re-hospitalizations, placements in higher levels of care, and/or assist with transition to lower levels of care. TBS is an ancillary service in the home school or at the child/youth current residential placement. Therapeutic Behavioral Services are provided countywide to eligible Full-Scope Medi-Cal recipients.

Transition Age Youth (TAY)

Youth ages 16 up to 21 years. TAY youth may be served in the Children, Youth and Families System of Care (CYFSOC), TAY specific programs or for those TAY age 18 and older that are seriously mentally ill, may be served in the Adult/Older Adult SOC.

Women's Perinatal Substance Use Disorder (SUD) Services

The County of San Diego has a Perinatal System of Care that provides a wide array of Substance Use Disorder (SUD) treatment services to all women. Perinatal SUD services are designed specifically to meet the needs of pregnant and/or parenting women and teens. Pregnant women have priority admission to recovery and treatment programs. The perinatal programs provide a welcoming and safe environment, gender specific curriculum, with individualized trauma informed care, that focuses on the needs of mothers working towards recovery.

Perinatal SUD treatment is available throughout the county and includes: long term residential treatment for women and their children, Spanish-speaking staff, perinatal detoxification, outpatient programs for women and teens, and intensive mobile perinatal case management services to high risk pregnant women or teens. The perinatal SUD treatment programs support the needs of mothers through, parenting classes, child therapy, life skills, healthy relationships, recovery groups, classes for improving self-esteem, education, transportation and free onsite childcare. All services are provided on a sliding fee scale. Treatment fees may be waived for Medi-Cal recipients.

Advocacy and Support Services

San Diego Youth Services
(619) 258-6877

South Bay
South Bay Community Services
(619) 420-3620

Hours: M-F 8:30 am – 5 pm

Population: School age children and their families in the designated school districts

Service: Social-emotional mental health evidenced based prevention and early intervention services for preschool and elementary school age children and their parents based at the public schools they attend. The services provide include screening, early identification and early intervention. These services also include a Family Community Partnership component that provides outreach and behavioral health prevention activities to parents in the identified schools.

Specialty Populations: The priority populations are at risk children who are underserved and living in high-risk communities often burdened with poverty, illiteracy, limited education, and homelessness. The target population is public elementary schools that have a minimum of 75% of the school population eligible for free and reduced meals in the identified school districts.
